DETAILED ACTION

Election/Restrictions

This application is in condition for allowance except for the presence of claims 31-52 and 54 directed to an invention (i.e. a method of preparing a composition) non-elected without traverse. Accordingly, claims 31-52 and 54 will be canceled by an Examiner's Amendment which appears below.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Claims:

Claims 31-52 and 54 are canceled.

Allowable Subject Matter

Claims 1-22, 26-30, 53, and 55-59 are allowed.

The following is an examiner's statement of reasons for allowance: In view of Figure 1 of the instant application specification and corresponding description of the specification which show the criticality of pH range of 9 to 13 for a composition to form a passivating layer on a surface comprising at least 5% by weight of copper, the prior art

do not teach or suggest such as composition. Furthermore, the prior art do not teach such a composition which is, also, devoid of a film-forming agent, a copper complexing agent, and ammonium cations and forms a passivating layer on said surface wherein neither copper nor copper oxides are soluble in said composition.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
